

SEPTEMBER NATIONAL PREPAREDNESS MONTH

Week 3: The Power of Prepared Communities

Connection Is a Preparedness Tool

When times are uncertain, community becomes our lifeline. Do you know your local resources?

This week, take time to:

- Learn about local emergency alerts and warning systems.
- Connect with community centers, support groups, or neighborhood watch networks.
- Attend a preparedness training or drill, in-person or virtually.

In a crisis, we lean on each other. Let's make sure we're connected before we need to be.
